## SPECIFICATIONS

**INTRODUCING** the **Airbus A340-300**. Configured with 253 seats in 2 classes providing plenty of leg room in the wide-body twin-aisle cabin. For extra comfort, the Business Class section features flat-bed seats that fully recline.

The large **cargo holds can accommodate 11 pallets** (a mix of 96-inch and 88-inch pallets) or 32 industry-standard LD3 containers. Additionally, the large cargo doors can take LD3 containers in side- by-side loading.

With four engines, **the A340-300 does not require any ETOPS** (Extended-range Twin-engine Operational Performance Standards) certification. It also has good 'hot and high' capability at airports that would be inaccessible to other aircraft.

**The A340-300 offers a cost-effective solution for direct flights over long distances.**

### **The aircraft is available for:**

Subcharters

Adhoc charters or series of flights

ACMI lease (wet/damp lease on short or long term basis)

**Maximum Range:** 13 500 km

**Maximum Cargo Capacity:** 53 000 kg
